

ISO14001

Environmental Objectives - 2025

Our overall environmental objective is to minimise our impacts on the environment and local community through the continuous improvement of our environmental performance.

Our commitment and progress will be measured against the following objectives:

1. Maintain ISO 14001 Standard Certification

2. Continue 'Making the Switch' wherever we can – ensuring that our delivery locations are using renewable energy sources

3. Recycling initiatives to continue in 2025 to maximise our impact

4. Continue to strengthen and broaden our Scope 3 reporting arrangements, particularly from our partner/supplier relationships
